

Pascal Schweitzer

President, Transit

Since April 2023, Pascal Schweitzer has been President of Wabtec Transit, the passenger mobility equipment and services division of Wabtec Corporation, with a talent base of 12,000 employees.

Pascal joined Wabtec with the acquisition of GE Transportation in 2019, when he was appointed President of Wabtec Global Freight Services division, overseeing 24,000 locomotives in operation across the most strategic freight corridors in the world, helping railroads maximize the value of these assets over their entire lifecycle.

He has 25 years of experience in the Power, Transportation, and Distribution industries, leading complex businesses based out of Europe and the United States, with a focus on strategic growth, change management, continuous improvement, M&A, and subsequent integration projects.

A French citizen, Pascal holds a master's degree with a finance specialization from HEC Business School in Paris. He also completed the Advanced Management Program at Harvard Business School in 2022.
